

Muhammad Muneeb Iqbal

Full Stack Developer (MERN)

+92 3095075940 ◇ muneebiq24@gmail.com ◇ Wah Cantonment, Pakistan ◇ [LinkedIn](#) ◇ [Resume](#)

SUMMARY

Results-driven MERN Stack developer with a Computer Science degree and hands-on experience shipping real-world full-stack applications. Known for understanding business requirements, not just code, and delivering working features independently with clear communication. Strong background in RESTful API design, real-time architecture (WebSockets/WebRTC), and database optimization. Comfortable with screen sharing, time-tracking systems, and async remote workflows.

TECHNICAL SKILLS

Core Stack Node.js, Express.js, React.js, MongoDB (MERN)

Backend RESTful API design, WebSockets, Real-Time Architecture, MVC, WebRTC, JWT, RBAC

Frontend React.js, JavaScript(ES6+), CSS3, Responsive Design

Databases MongoDB, Firebase, MySQL, Database Design & Query Optimization

Tools & Deployment Git, Postman, Vercel, Render, MongoDB Atlas

Authentication & Security JWT (Access Tokens, Refresh Tokens, Middleware), Role-Based Access Control

PROJECTS

AroundYou - Real-Time Messaging & Voice MERN Application [Link](#) Dec '25 — Apr '26

- Designed and built a scalable Node.js/Express backend handling real-time events, user sessions, and chat room management.
- Implemented bidirectional WebSocket communication for low-latency real-time messaging and peer-to-peer audio calling via WebRTC.
- Architected RESTful APIs for authentication, user management, and data persistence with MongoDB.
- Built React frontend to consume backend APIs and display real-time updates.
- Optimized database queries and implemented efficient session management for high-throughput real-time operations.
- Deployed full-stack application on Vercel (frontend) and Render (backend) with a custom domain, maintaining production uptime for real users.

Smart Finance - AI Powered Finance Platform [Link](#) Feb '25 — Dec '25

- Developed secure expense tracking system with categorized budgeting, authentication, and transaction history.
- Implemented ML-driven expense forecasting using LSTM and ARIMA models.
- Delivered data-driven visual analytics with actionable spending insights and goal-based savings recommendations.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern Jun '23 — Nov '23
O2 Geeks Islamabad, Pakistan

- Developed and maintained full-stack web applications using modern frontend and backend technologies, contributing to responsive user interfaces, RESTful APIs, and database integration.
- Optimized application performance and resolved bugs to improve system reliability and user experience.
- Participated in the complete software development lifecycle, including requirement analysis, version control, testing, deployment, and documentation within an agile development environment.

Business Support System Specialist Jun '24 — Present
Mighty Dog Roofing of North Atlanta North Atlanta, United States (Remote)

- Managed finances with QuickBooks, AccuLynx, and Roofr.
- Supported project teams with budgeting and resource allocation.

Business Support System Specialist Dec '24 — Jan '25
Advanced Contractors Wichita, United States (Remote)

- Supported project teams by tracking expenses and managing budgets.

Business Support Specialist Jul '24 — Oct '24
Mighty Dog Roofing of Wichita Wichita, United States (Remote)

- Conducted financial audits and cost estimations for projects.
- Streamlined administrative processes to improve efficiency.

EDUCATION

Bachelor's in Computer Science, COMSATS University Islamabad Feb '22 — Jan '26

- Gained comprehensive knowledge in algorithms, data structures, and software development.

CERTIFICATIONS

Full-Stack Web Development Certification, Udemy

Feb '26
